**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The following amendment is made to cancel the non-elected invention claims.
3. The application has been amended as follows:

**Cancel claims 14-21.**

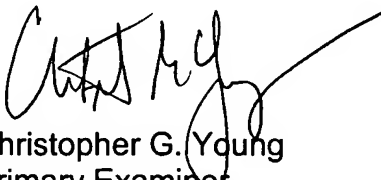

4. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. The amended scope has overcome the rejection of record. Clarifying that the heat source is separate from the radiation source, and that the heat source is operated through a filter has defined the claims over the prior art of record. The reference cited by the Examiner on the PTO-892 sets forth the state of the art pertaining to substrate temperature control in a zoned manner. However, there is nothing to lead one of skill in the art to utilize this apparatus and method with a mask since the operation of the mask would be defeated. In view of this, the claims are in condition for allowance and are being passed to Issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.
